

Dr. Gregory Albert
and Stephen Weiss,
NHL Florida Panthers

A PROVEN LEADER IN MALE PLASTIC SURGERY

Dr. Gregory Albert Official Plastic Surgeon NHL Florida Panthers

From the NHL to the MMA, the world's most revered athletes trust their looks and athletic performances to Dr. Gregory Albert.

In his 10-year tenure as the Official Plastic Surgeon of the Florida Panthers, Dr. Albert has proven his extraordinary surgical skills to his players, and has earned both their trust and their friendship. From Stephen Weiss to Kris Versteeg, and all the players and referees for whom he has performed aesthetic and reconstructive procedures, the most notable quote is from Weiss, who said:

"Dr. A keeps me looking fantastic in a pretty rough contact game...and looking great is really

important to me as a professional athlete. I mean...come on...looking good is fabulous!"

Dr. Albert traveled to London in March after treating MMA's

More men are seeking cosmetic procedures to get the edge and confidence to compete in today's competitive social and economic climate. Dr. Albert has enabled athletes, business executives, retirees and all men to look better and gain self-esteem.

Tyrone Spong for an injury to his left hand that could have jeopardized his performance in the ring. Spong declared: "I could not have gone into the ring if not for Dr. Albert." Due to Dr. Albert's aggressive treatment to the hand, Tyrone Spong prevailed and went on to defeat opponent Remy Bonjasky with a knockout in the second round of the fight. Dr. Albert was ringside in London to ensure Spong's physical durability during the fight.

Dr. Albert has been an industry leader in male plastic surgery procedures for many years, and is well-known for his perfecting Gynecomastia, or male breast reduc-

tion, which involves the removal of excess male breast tissue. Large male breasts can cause social anxiety and physical discomfort, and impacts men regardless of their age. Dr. Albert specializes in all procedures for men; he is an expert in cosmetic eye surgery, medically referred to as blepharoplasty, which is a procedure designed to remove fat and/or excess skin from the eyelids to rejuvenate puffy, sagging, tired-looking eyes. Dr. Albert is highly skilled at facial contouring using fillers and Botox to diminish fine lines and wrinkles, as well as neck and face lifts, liposuction and a host of other appearance-enhancing opportunities.
