BRAND-NEW YOU

Dr. Gregory Albert
Uses Cutting-Edge
Procedures For
Remarkable, Natural-
Looking Results

Dr. Gregory Albert is quickly becoming the industry standard for Plastic Surgery. His impeccable credentials, both academic as well as surgical, have allowed him to become one of South Florida's leading board-certified plastic surgeons. Dr. Albert is renowned for performing procedures that create, sculpt, perfect and refine beauty; renewal that is extraordinary in its results.

Dr. Gregory Albert

“ Dr. Albert is highly respected in the field, and has appeared extensively in the press and media at the request of national medical health journalists. ”

Dr. Albert is highly respected in the field, and has appeared extensively in the press and media at the request of national medical health journalists. His cutting-edge minimal incision arm lift has been featured in medical segments on ABC, CBS and NBC News. He serves on many well-regarded medical advisory boards, including pharmaceutical giant Suneva for its injectable

“Artefill” and is credited with bringing to South Florida its most advanced and permanent injectable. This has been a game changer both for the industry and for patients. His practice is also distinguished by its advanced use of the Active FX CO2 laser. This revolutionary fractional laser technique literally takes years off of your face, with proven and remarkable results be-

ing tissue tightening and wrinkle elimination. His perfecting of laser technologies, as well as his reputation for the mid-face, or “cheek lift,” which is essentially a scarless facelift, has garnered the interest of several major national media outlets. The breakthrough mid-face procedure has afforded younger patients a very natural and youthful facial rejuvenation, as it's a specialized procedure that allows for dramatic results without a traditional full facelift. The results are amazing; the downtime is literally cut in half.

Our goal is simple at Dr. Gregory Albert Plastic Surgery: to enhance your beauty and vitality, utilizing the most natural, minimally invasive and painless techniques. Your treatment is customized to your specific needs, whether it be Face, Breasts, Body or Male-Specific.
