

NOT SEEING IS BELIEVING

Dr. Gregory Albert Performs Cutting-Edge Plastic Surgery For Natural Results

Dr. Gregory Albert. Highly-credentialed and well-regarded throughout the United States, is known as South Florida's leading Board-certified plastic and cosmetic surgeon. The practice philosophy is simply: Continuity of Aesthetic Care. Dr. Albert, who focuses on the concept of "Age Management" believes that each patient has both immediate concerns as well as long-term goals. His ability to sustain beauty and natural results with individualized procedures is unparalleled, and sets him apart from other cosmetic surgeons.

Some of Dr. Albert's patients come to him simply looking to get rid of a couple of wrinkles or frown lines. Others are looking to add fullness to their skin, correct facial wrinkles/lines and folds.

"While fillers are much more popular than they used to be, they are still no replacement for plastic surgery," says Dr. Albert.

Dr. Albert also performs facelifts, neck-

lifts, eyelid and forehead lifts, among other procedures.

Due to his stature in the industry, and his proficiency with the minimal incision arm-lift, his expertise with the procedure has

“Men in Florida are living longer, healthier lives and they want to look great.”

been featured in several televised segments on major television affiliates. This game-changing procedure uses a small incision to remove excess sagging tissue and skin. It is, essentially, a new "lease on a South Florida life and a South-Florida style."

Dr. Gregory Albert is located at 6290 Linton Blvd., Suite 203, Delray Beach. For more information, call **561-495-2700** or visit drgregoryalbert.com or askdralbert.com.

There also are a variety of options available for men who would like to make a positive physical change. Dr. Albert is recognized as a leader in male cosmetic and aesthetic procedures. One procedure he is credited with perfecting is male breast reduction and involves the removal of excess male breast tissue.

The condition, called gynecomastia, is a condition that impacts men regardless of their age.

"Men in Florida are living longer, healthier lives and they want to look great," says Dr. Albert.

Whatever your dreams and hopes for a better you, Dr. Albert will help you decide what procedure is right. Today and tomorrow.

I listen to my patients, says Dr. Albert. "That's ALWAYS the first step we take together to achieve a new you."
